

Californians are uniting to put our schools and communities first

Schools & Communities First—a November 2020 ballot initiative—is a fair and balanced reform that raises revenues to invest in schools and vital services for our communities

It's time for the biggest corporations to start paying their fair share

The biggest corporate property owners are using shady loopholes to avoid paying their fair share in property taxes. It costs our schools and local communities \$12 billion a year. The result is our communities are left without the resources we need to: provide new funding for every school district in California, protect us from health care emergencies, reduce homelessness, and ensure basics like clean drinking water. *Together, we can change that.*

VOTE **YES** FOR **SCHOOLS & COMMUNITIES FIRST**

- ✓ Exempts homeowners, renters, and agriculture so they continue to be fully protected by Prop 13
- ✓ Reclaims \$12 billion per year in schools, community colleges, and local community services
- ✓ 10% of the biggest corporate property owners will pay 92% of the funding
- ✓ Gives small businesses reviving our economy tax breaks to hire back workers and grow
